

Emilie Mattson

2003 biography

I was raised in the Robson Valley along with three brothers. When we were 20 years old, my husband and I, moved to Rolla and took up cattle ranching. Horses, grandchildren, border collies ~~dogs~~ and gardening seem to consume a lot of my attention.

Although I always "dabbled" in art, at age 40

I needed to pursue "the passion" in earnest.

At age 46, my eldest son and I built a studio in the farmyard . . . and nothing has been the same since!

I work in oils ~~on canvas~~ . . . but mainly I create mixed media sculptures, drawing on the resources I find around me.
